*Re: Gary E. Kilpatrick*

To Whom It May Concern:

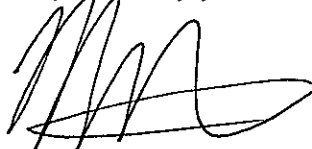

I am a civil litigator in Raleigh, North Carolina. A substantial part of my practice involves personal injury litigation.

Over the last few years, I have used Gary E. Kilpatrick as an engineer expert in several different cases. For example, Gary helped me identify pertinent OSHA and other rules for fork lift operators in a case where my client was injured by a fork lift. Gary also assisted with a forensic examination stemming from a defective lawn aerator that injured a client. Moreover, Gary performed a forensic examination in a case where a defect in my client's vehicle resulted in a crash and serious injury.

I have enjoyed working with Gary. He is responsive, candid, knowledgeable, and articulate. I look forward to using Gary on other cases in the future.

Please let me know if you have any questions or concerns. Thank you.

Very sincerely yours,
